

Valves

JETTECH®

The Model 96004 High Flow Dump Valve is rated to 20,000 PSI (1380 bar) and 100 GPM (378 L/M).

- High Pressure Connections: 1" MP Female
- Available actuation:
96004P: Pneumatic
96004H: Hydraulic
- Dump Connection: ¾ NPT Female

Model: 96004

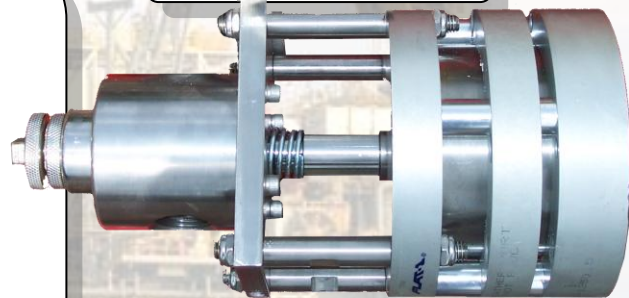

96004P

The Model 98-DVA is Jetech's time-tested dump valve with an actuator, designed for automation applications

- Models:
985: 40,000 PSI (2,760 bar), 20 GPM (76 L/M)
Connection: 9/16 HP Female
986: 20,000 PSI (1,380 bar), 30 GPM (114 L/M)
Connection: 9/16 MP Female
- Available actuation:
DVAP: Pneumatic
DVAH: Hydraulic
- Dump Connection: 3/8 NPT Female

Model: 98-DVA

985-DVAP

The Model 98-DVM is Jetech's standard dump valve with a choice of manual actuation devices

- Models:
984: 40,000 PSI (2,760 bar), 20 GPM (76 L/M)
Connection: 9/16 HP Female
983: 20,000 PSI (1,380 bar), 30 GPM (114 L/M)
Connection: 9/16 MP Female
- Available actuation:
DVMF: Foot Actuated
DVMT: Trigger Actuated
- Dump Connection: 3/8 NPT Female

Model: 98-DVM
